MEMORANDUM FOR

**DIRECTOR, INSTALLATION MANAGEMENT AGENCY (IMAH-PWD/MR. HEO),
2511 JEFFERSON DAVIS HIGHWAY, ARLINGTON, VA 22202-3926**

**CHIEF, NATIONAL GUARD BUREAU (ARI/CW3 SABLAN), 111 SOUTH GEORGE
MASON DRIVE, ARLINGTON, VA 22204**

**COMMANDING GENERAL, U.S. ARMY MATERIEL COMMAND (G1/AMCPE-I/MR.
FUNDERBERG), 9351 HALL ROAD, FORT BELVOIR, VA 22046**

SUBJECT: FY06 Solid Waste Annual Reporting (SWARWeb) Schedule

1. Reference memorandum: Assistant Chief of Staff for Installation Management (DAIM-FD), 18 Dec 02, Subject: Implementation of Solid Waste Annual Reporting System -SWARWeb.
2. The Installation Management Agency is requested to provide verified installation-level SWARWeb data for FY06 to the ACSIM point of contact by 17 Nov 06.
3. SWARWeb is the official Army system for gathering, managing and reporting installation solid waste and recycling data to the Department of Defense as part of the annual Environmental Quality Report. SWARWeb is also a data source for "top-loading" into other performance measurement systems, such as the Installation Status Report and Army Baseline Services. At the 122 installations reporting in FY05, the Army generated 1,442 K tons of household/garrison solid waste and 739 K tons of construction and demolition (C&D) wastes. By recycling 480K tons of solid waste and 492 tons of C&D wastes, the Army avoided \$75.0 M in disposal costs.
4. The Department of Defense measure of merit or MoM for solid waste for FY 06 remains the same as FY05, namely to have a cost-effective solid waste management program that reduces waste generation and increases waste diversion as compared to the previous year, and to optimize cost avoidance. Having complete and accurate solid waste and recycling data for all installations, including Army Reserve and Army Guard facilities that qualify, is crucial to the Army's commitment to sustainable management of our non-hazardous solid wastes.
